## WHY DO ADVERTISERS LIKE CINEMA ADVERTISING?

- It's advertising at its most effective
- Unequalled impact — no distractions
- Movement, color and size allow your ad to dominate your audience on a scale so massive — nothing else comes close
- Reaches the people you want to reach

*The Irwin Citation*

# "For best value in a supporting role."

Why is the Irwin Citation the hottest chair in the theatre business? Because it's the best value... at a surprisingly reasonable cost, it's the only really modern theatre chair on the market today. When you install the Citation in your theatre, here's what you get —

★ The original one-piece injection molded (not vacuum formed) linear polyethelene back. No repainting ever again. No exposed screws. Mar resistant and dent-proof. Contemporary design with an attractive textured finish to complement your modern theatre. The one-piece back also forms a protective channel around the back cushion to protect it and prevent "finger-tipping."

★ Comfort — with the Irwin option of allowing you to select three different degrees of pitch at installation — 16°, 20°, or the unique "Comfort-Slope" angle of 24°. And it's quiet, with squeak-proof insulated clips and springs.

★ The exclusive Irwin "Quick-Change" seat cushion for ease of maintenance and seat rotation allows authorized seat removal in seconds . . . no hard-to-get-at screws.

★ All these features including quality construction (of course the standards are steel, the modern structural material) and luxurious comfort . . . at far from luxurious prices . . . are the reasons the Irwin Citation has met with unprecedented acceptance. Call us or your Irwin distributor and make your theatre really modern with the Irwin Citation, the best value in a supporting role.

Vancouver, B.C. V5T 1R7  
(604) 879-6564  
Director: Mary-Louise McCausland

### Film Classification

(a) *General Entertainment* — the content of these films should not be found offensive to the general public.

(b) *Mature Entertainment* — the word "mature" was a deliberate choice, designed to act as a guide to parents. The subject matter of a film in this classification or the way in which it is portrayed may not be appropriate for some young people. There is no age restriction for this classification, but warnings are often added.

(c) *Restricted Entertainment* — because of the nature or contents of these films, persons under the age of 18 are not allowed to attend unless they are accompanied by a parent or other responsible adult *who must remain with the underaged person during the entire film*. As a condition of admittance, the theatre has the right to require the accompanying adult to sign a form accepting responsibility for the underaged person. (Notes from parents giving permission for a child to see a Restricted film are not acceptable.)

(d) *Warnings* — to help the movie-goer to choose his or her entertainment, warnings about possibly offensive material are often added to the classification. These notes may include such statements as "frequent coarse language and swearing", "some nudity and suggestive scenes", or "occasional frightening and violent scenes".

#### Film Classification

The classification of each film reflects the following general policy considerations to the public.

General: Suitable for all ages — generally considered family entertainment.

Adult Entertainment: Parents are advised that theme or content may be more mature than those of general films. However, children are permitted unsupervised access and the decision of film suitability lies entirely with the parents. Adult films may contain scenes of limited violence such as hand-to-hand fighting, the use of weapons without excessive bloodletting and restrained portrayal of accident or disaster. They may also contain scenes involving casual or brief nudity, romantic involvement that is not sexually explicit and where participants are at least partially clothed. Some use of coarse or vulgar language.

In 1980, Cineplex made the Guinness Book of Records with 18 cinemas under one roof.

# Now we are 21! (That's 3 more for the book!)

When Cineplex opened at Toronto's Eaton Centre, it became the world's largest cinema complex under one roof. Now, with three new cinemas added to the original 18, we've broken our own record!

For distributors, 21 cinemas can provide a greater opportunity to extend the running life of any movie. For patrons, Cineplex offers its own unique policy, which includes: THE WIDEST SELECTION of great movie entertainment; PRIME LOCATION close to transportation, parking, shops and restaurants; complete BETWEEN SHOW CLEAN-UPS; and ADVANCED TICKET PURCHASING on the same day of any show. What's more, by the end of 1981 Cineplex will be operating in many major centres across Canada.

Cineplex. The landmark success that keeps breaking records. **Our own!**

# 7 REASONS YOU'LL LOVE IT

Ask any of the 50,000 people who own an Elmo 16-CL: they'll tell you it's closer to being indestructible than any 16mm portable sound projector that's ever been made.

It works when you need it. And it doesn't chew up film. In fact, it projects damaged film so smoothly, you'll never know some other projector tried eating it for breakfast.

It projects the most brilliant images. Elmo's high speed f/1.2 lens and 250W Halogen lamp see to that. Plus you don't have to be an acrobat to operate it. Elmo's Channel Loading makes it easier than the so-called automatics – and faster.

The 16-CL and the 16-CL Xenon, with its 1,000 hour lamp, are at your Elmo AV dealer, who'll demonstrate why more than 50,000 users have said, "Elmo 16-CL, we love you!"

Now Available! New 16mm Xenon Arc Pedestal Projectors with up to 6000' film capacity. Write today for free coloured literature on all Elmo 16mm Projectors.

## Sound Insurance

Recording high quality documentary sound is a risky business. Recordists work with untrained voices, no boom operators, and no rehearsals or retakes for sound.

We use "hands-on" transfer techniques to compensate for the unforeseeable. Our custom transfers of documentary, educational and industrial shoots cost no more than regular unprocessed transfers. Detailed transfer reports increase sync-up efficiency, and your rushes sound smooth. Let us transfer your next shoot; we'll catch potential sound problems early, before they become costly.

# Like a Butterfly

## Sel un papillon

*Consider the butterfly.*

*It doesn't start out looking that good. It takes time. Patience. Growth. Change. Like a film.*

*Consider the film. At the beginning it may not look like much. Like the butterfly before it becomes a butterfly, a film must be carried on many legs before it can fly – the director, the producer, the cinematographer, the film editor, the scriptwriter, the distributor, the media... all giving of their intelligence, humanity and passion.*

*Like the butterfly, a film goes through many changes, a process which is not always visible to the casual observer. Taking that next step without knowing where it might lead. Until – at last – the idea takes flight, to dazzle and delight the audience.*

*We know and appreciate what it takes to give wings to an idea.*

*Issu des profondeurs du génie de l'homme, le film incarne la merveilleuse métamorphose de sa pensée et reflète son intelligence, sa vie, son évolution et ses passions.*

*Se nourrissant de leur observation du monde, des centaines de personnes – concepteurs, écrivains, techniciens, artistes, réalisateurs et producteurs – déploient leurs multiples talents afin de créer et concrétiser l'idée d'une œuvre.*

*Avant même de naître, le film capte l'attention des médias et de la publicité qui préparent sa venue. Et alors, chatoyant des mille feux de l'intelligence de l'homme, le film s'envole vers sa destinée.*

*L'Œuvre jouira d'une carrière fulgurante ou éphémère, envahira la terre ou mourra prématurément. Certains spécimens plus flamboyants que d'autres passeront à l'histoire, émerveilleront des générations de publics et de cinéastes qui s'en inspireront, connaîtront la gloire.*

The Canada Council, created by an Act of Parliament in 1957, revised in 1977, to promote the arts, carries out its work mainly through a broad program of grants and services to artists and arts organizations. The Council also has some responsibility for promoting Canadian Culture abroad, and administers the Canadian Commission for Unesco and special programs financed by private donations. The Council reports to Parliament through the Secretary of State and appears before the Standing Committee on Broadcasting, Films and Assistance to the Arts.

### Film Production Grants

Applicants must have produced at least one film or have established a professional reputation in the visual arts. Applicants must provide supporting footage in the same millimetre footage to be used in the proposed production.

Projects being produced or sponsored by other federal film agencies are not eligible for Canada Council grants.

Applications must be received by a certain date in order to be considered at the next Canada Council meeting: February 15 for announcement in April; July 15 for announcement in September; November 15 for announcement in January.

### Other Grants

Professional filmmakers may be eligible for assistance through other grant programs administered by the Canada Council. These include: Arts Grants "A"; Arts Grants "B"; Short Term Grants; Project Cost Grants; Travel Grants; the Explorations Program.

### Objects and Powers

(1) The objects of the Corporation are to foster and promote the development of a feature film industry in Canada, and without limiting the generality of the foregoing, the Corporation may, in furtherance of its objects

(a) invest in individual Canadian feature film productions in return for a share in the proceeds from any such productions;

(b) make loans to producers of individual Canadian feature film productions; and

(c) advise and assist the producers of Canadian feature films in the distribution of such films and in the administration functions of feature film productions.

(2) For the purposes of the CFDA Act, a "Canadian feature film" or "Canadian feature film production" is a feature film or feature film production in respect of which the Corporation has determined

(a) that the completed film will, in the judgment of the Corporation, have a significant Canadian creative, artistic and technical content, and that arrangements have been made to ensure that the individual copyright in the completed film will be beneficially owned by an individual resident in Canada, by a corporation incorporated under the laws of Canada, or a province, or by any combination of such persons; or

(b) that provision has been made for the production of the film under a co-production agreement entered into between Canada and another country.

(3) The Corporation shall not be regarded as a partner in any film production in which it may invest and its liability shall be limited to the amount of its investment in the production.

(4) The Corporation shall, to the greatest possible extent consistent with the performance of its duties under this Act, consult and co-operate with departments, branches and agencies of the Government of Canada and of the governments of the provinces having duties related to, or having aims or objects related to those of the Corporation.

### Programs

The Corporation assists Canadian feature film producers by providing development, interim and investment financing for films that meet its criteria on Canadian content, financing, completion and distribution.

The Corporation assists Canadian distribution companies by supplementing their budgets in the launching of Canadian feature films released in Canadian theatres.

The Corporation assists Canadian feature film producers in developing screenplays. Its investment could cover the cost of securing an option on a Canadian novel, retaining an experienced screenwriter and certain other expenses relating to the project.

### Co-Productions

Since February 1976, the CFDC has been designated by the Secretary of State as administrator of co-production treaties between the Government of Canada and participating countries. Canada has co-production agreements with the United Kingdom, France, Italy, Israel and Germany.

The treaty with France specifies a percentage limit of 80:20 for the proportion of involvement between the majority and minority partners in the co-production. The agreements with the United Kingdom, Italy, Germany and Israel specify 70:30.

The terms of the co-production require that the artistic and technical input of each country, as well as the financial participation, should reflect its proportionate involvement in the film. Also spelled out in each co-production treaty is the minimum participation of the minority partner. The finished film is considered a national film by both countries.

As administrator, the CFDC receives all applications, studies and evaluates them and makes recommendations to the Secretary of State. When a film has been completed the producer must provide an audited statement of costs and screen the film, after which a final recommendation is made to the Minister. All co-production applications are forwarded to Samuel Freeman at the CFDC's Toronto office.

Information about the program, including the eligibility requirements for certification and application procedures, and blank application forms are available from this office.

The Association was incorporated as a non-profit body in the fall of 1973. At that time it was a small group of Alberta film production houses which were the Active members, plus various Associate members. In its eighth year, the Association has grown to 35 active members, 16 corporate affiliates (suppliers, educational institutes, crown corporations, etc.) and 90 associates (individuals who may not be engaged full time in motion pictures but who have a special interest in the industry, or individuals who are employees of active member companies and wish to be personally affiliated with the Association). The total of 141 memberships involves more than 500 people in the Association's activities. A quarterly bulletin, in English, goes to members and associates. Seminars and workshops (e.g. the Banff Seminar) are held several times a year; and the Association sponsors an annual film festival.

**Pioneer Of The Year Award:**

In 1952 the C.P.P. marked the Golden Anniversary of the Silver Screen in Canada, dating it from the establishment of the first successful motion picture theatre — the Electric of John Schulberg on Cordova Street, Vancouver, which he opened in the fall of 1902. At the celebration banquet, held in the Royal York Hotel, Toronto, Schulberg, Jule Allen of Toronto, George Ganetacos of Montreal, A.J. Mason of Springhill,

Nova Scotia, L. Ernest Ouimet of Montreal, and Fred G. Spencer of Saint John, New Brunswick, were honored as pre-1910 pioneers who had done the most to advance the motion picture as a popular form of entertainment in its early days. Spencer passed on shortly before the banquet and Schulberg, Ganetacos and Allen have died since.

The next year, the Pioneer of the Year Award was inaugurated. Those who have received it to date are:

**Aims and Objectives:**

The Council of Canadian Filmmakers is an umbrella organization which represents, through its individual and organization members, 14,000 film directors, writers, actors, technicians, and production personnel in the English Canadian film and television industry.

CCFM was formed in March, 1973 in response to the growing problems of the film industry. Speaking on behalf of its members, CCFM has presented numerous briefs and interventions to all three levels of government in Canada, and has spoken out in public and private forums on the need to improve the situation of the English Canadian film industry.

In the past year, CCFM has continued to press for legislated quota and levy systems to ensure that Canadian films have reasonable access to Canadian theatres, and to ensure that a reasonable percentage of Canadian box office earnings are returned to Canadian production. The Council has also undertaken extensive research in the area of Pay-TV.

The objective of the Council of Canadian Filmmakers is to promote the development of an indigenous English Canadian film industry by: (1) informing government and the public of the situation in the film industry in English Canada; (2) presenting a unified industry voice in negotiations with government, in public forums and in the press; (3) lobbying for the conditions which will make an indigenous film industry viable in Canada.

A new category of participation in the MPIC has been created which provides an on-going analysis of the motion picture industry with regular mailings of news bulletins, press releases, schedules, financial analyses, briefs, press clips and other relevant documents dealing with new trends and developments in the Canadian and international film, television and communications communities. Associate membership is open to individuals and corporations involved in film or related areas.

Over the last three years, activities have included various professional development seminars in production, co-production, audio-visual communications, marketing and feature film financing. The transcripts of

the feature film financing seminar, held in 1979, have been published by the Institute and are generating orders from Canadian and international producers, filmmakers and financiers.

A screenwriting competition is being organized to acknowledge the critical importance of quality screenwriting to the motion picture industry and to encourage and honour talented Canadian scriptwriters and on-the-job apprenticeship training programs will be launched in the near future to provide young Canadians with the opportunity of working with industry professionals on major independent and studio productions.

Each motion picture theatre in Canada, whether individual or a chain, is obligated to pay to Performing Rights Organization of Canada Limited an annual licence fee for the right to perform music in its repertoire, or the repertoires of foreign performing right organizations represented in Canada by P.R.O. Canada. The licence fees have been collected from theatres on behalf of writers, composers and music publishers since 1966.

The fees collected must be approved annually by the Copyright Appeal Board in Ottawa. The courts uphold the fact that it is unlawful to operate a motion picture theatre in Canada without a P.R.O. licence for the performance in Canada of its dramatico-musical works during the calendar year 1981. Tariffs are printed in "The Canada Gazette".

### Variety in Action

In Ontario during the past six years, Tent 28 has raised and allocated close to 12 million dollars as its contribution to the "greatest children's charity in the world". Fund-raising activities include an Annual Bike-A-Thon, a Bingo operation, Annual Gourmet Dinner, a Golf Tournament, and a Telethon.

Tent 28 gives a large measure of financial support to the Variety Village Electro Limb Centre, Day Care program, and a unique Sports Training and Fitness Centre for disabled young people now under construction. Help also extends to a long list of diverse recipients — the research program of the Ontario Society for Crippled Children, the Hospital for Sick Children Cardiac Catheterization Lab, the Mount Sinai Hospital Ultra Wave Diagnostic equipment, the Ontario Community for the Deaf — to name a few.

The Toronto Blue Jays baseball team have designated Variety Club as their charity, and the Variety Club in Ontario is host to an annual "Baseball's Back In Town" dinner on the eve of opening day. There are now thirty-five Variety Sunshine Vans in operation in Ontario, which are custom-built according to the disability of the children to be transported.

# CAPAC: KEEPING SCORE FOR CANADIAN FILM MUSIC

CAPAC is Canada's largest and longest established performing rights organization. It's been around for over 50 years — a lot longer than the film business in Canada! Its main job is to collect performing rights royalties from the people who use music, and distribute the money to the people who compose and publish it.

CAPAC composers and publishers produce nearly all the music for made-in-Canada motion pictures (and for the majority of Canadian television shows, too). And many of CAPAC's 8,000 writer-members contribute to the scores of films made in Europe and the United States.

The list we've printed here? Just a handful of the hundreds of films for which some of our members have written the music. We're proud of them — and we're keeping score of their credits.

Film Studies is an academic discipline concerned with the history, criticism, theory and practice of the cinema both as an art form and as a documentary record of our time. The cinema is a source of pleasure and knowledge, and its study should form a part of one's cultural education. The program will enable the student to develop a critical faculty appropriate to intelligent understanding of the cinema by approaching its study as a scholarly activity which rewards systematic research, analysis and exposition. Eleven courses will be offered in 1981-1982, leading to a B.A. with a Major or Honours in Film Studies.

#### ONTARIO FILM INSTITUTE

Ontario Science Centre  
770 Don Mills Rd.  
Don Mills, Ont. M3C 1T3

Director: Gerald Pratley

Administrator: Sherie Brethour

The Ontario Film Institute was founded in 1969 to encourage the development of the art of the film and to foster public appreciation and study of film history, origins and accomplishments. It was further required to act as a clearing house for information on all matters affecting films in Ontario, in the country as a whole, and also abroad, particularly with regard to education and general knowledge.

The Institute is part of the Ontario Science Centre, situated on parklands in the Toronto suburb of Don Mills. It is financed through the Science Centre by the Ministry of Culture and Recreation of the Province of Ontario. As such it is a department of government. It is not affiliated with commercial film companies or interests in any way, but maintains harmonious working relations with producers, distributors and exhibitors. The OFI has three divisions: the Institute itself, which is the reference and information centre, the Ontario Film theatre, and the Ontario Film Archive. The Institute collects, preserves, organizes and makes available

documentation on Canadian and international motion pictures — mostly feature films. There is a comprehensive book library, several hundred screenplays, a large collection of soundtrack recordings and tape-recorded interviews with film makers, and a periodicals section made up largely of leading English-language film journals.

The Ontario Film Theatre presents film showings covering a wide range of material and has become an established part of Toronto's cultural life with its seasons of films from abroad, directors' series, historical surveys and current cinema programs. The auditorium of the Science Centre functions as the Ontario Film Theatre in the evenings. It has 482 seats, translation booths, an ideal stage area for discussions, and a projection booth equipped with 16, 35, 70 mm projectors and a 24-speaker stereophonic sound system. The OFT also has the use of three 16 mm viewing theatres at the Science Centre, when required. There is also a Cinema Bar open on those evenings when directors or other speakers attend the showings of their films.

Regional Film Theatres have been operating successfully on a regular basis in Brockville, Windsor and Niagara-on-the-Lake, with programs of European, American, Canadian and classic films. The Institute is prepared to assist all communities which desire to start film theatre programs providing facilities are available and local organising committees are formed.

Quarterly publication: Film News; occasional publications of monographs on cinematic subjects (in English).

Collections of Ontario-related film prints; other copies on deposit with the National Film Archive, Ottawa.

The PCP runs a regular 5-day exhibition program at the National Film Board Theatre of series of world cinema, directors' retrospectives, independent productions, non-narrative films and special events of talks by filmmakers, forums and

mini-festivals, as well as an extension program of packages of films to minor communities in the province.

The Academy of Motion Picture Arts and Sciences is an honorary organization composed of more than 4,200 motion picture craftsmen and artists.

Since its founding in 1927, the organization's stature has grown internationally until today the Academy provides unparalleled incentive for higher levels of technical and professional achievement among all branches of filmmaking and has become the cinema's most effective single ambassador.

It is widely recognized that the motion picture is one of our most important sources of information, education and entertainment. This, and the constantly rising artistic merit of films produced throughout the world, are due, in part, to the Academy.

The Academy is a non-profit organization whose field of activity does not include economic, labor or political matters.

### PURPOSES

The purposes of the Academy are to advance the arts and sciences of motion pictures; foster co-operation among creative leaders of cultural, educational and technological progress; recognize outstanding achievements; co-operate on technical research and improvement of methods and equipment; provide a common forum and meeting ground for various branches and crafts; represent the viewpoint of the actual creators of the motion picture and foster

educational activities between the public and the film industry.

### HISTORY

The Academy was organized in May 1927 as a non-profit corporation, chartered under the laws of California. Its 36 charter members included production executives and film luminaries of the time.

The Academy moved into its present quarters in Beverly Hills in 1975. The seven-storey building includes the Samuel Goldwyn Theater, Margaret Herrick Library, Administrative and Publications offices.

# making films is your job... cutting red tape is ours.

Film Liaison Toronto is the red tape short cut in Canada's film making capital. We provide location permits and assistance, arrange free parking for production vehicles, obtain easy access to City services, arrange police assistance and get the other public agency approvals you need.

“At the best of times, a film unit bears a remarkable resemblance to an invading army. Many poorly administered productions follow a scorched earth policy and take every advantage possible, while showing no real consideration for local citizens. But, because of the very nature of our business, film crews must control everything seen and heard around them. In Toronto, with its normal traffic problems and now, with the advent of ‘tow-away zones’, even with our good P.R. track record while filming *Running*, *Middle Age Crazy* and *Bells*, our crew on *Utilities* was terrified that they would be mounting a camera on one end of a crane while a tow truck was pulling it away from the other. Fortunately, we were blessed with Film Liaison Toronto, Naish McHugh, who made sure things went smoothly for us.”

Bob Cooper, *Canadian Film Producer.*

CAMPP was incorporated federally in 1973 to promote and foster the production of motion pictures in Canada; to develop and promote the interests of producers; and to provide its membership with technical and other information for the improvement of their knowledge, work and status.

Membership is voluntary and is comprised of some one hundred individuals whose activities represent the overwhelming majority of feature length motion pictures produced in Canada. Annual membership dues are \$150.00 per individual at present and each member pays a production levy with respect to each film in which he performs a producing function. All members are Canadian citizens or permanent residents of Canada and have performed the function of a producer on at least one feature length motion picture.

The members elect the Board of eleven directors annually and these directors become the officers of the Association. The Association has no full time staff nor is any member compensated for his services to the Association. Members are active on several standing committees including feature film co-productions, pay television, taxation, securities regulation, industry relations, marketing, professional development and education, and sundry others.

CAMPP is a member of the International Federation of Film Producers Associations.

The Canadian Society of Cinematographers was founded in 1957 by a group of veteran cinematographers from Toronto, Montreal and Ottawa. It is the only organization in Canada that represents the interests of cinematographers exclusively.

Its aims are:

1. To promote and foster cinematography in Canada.
2. To develop and promote the interests of Canadian cinematographers.
3. To provide membership with technical and other information for the improvement of their knowledge, work and status.
4. To function towards the achievement of these purposes free from all partisan political, labour-management and other issues not related to these stated aims.

For over 21 years more than 300 cinematographers, assistant-cameramen and film students have become members of the Canadian Society of Cinematographers.

Members of the Society are active participants at meetings of the Academy of Canadian Cinema, the CFDC and other groups within the film community.

The Society founded the magazine "Canadian Cinematography" which later became "Cinema Canada", now published independently.

Through meetings held on the first Monday of each month, September through May, the executive strives to have interesting and informative discussions on current and new

equipment, new techniques and problems that may affect professional cinematographers.

Several members are instructors at universities and colleges across Canada and the Society periodically organizes special classes for assistant cameramen and others interested in learning the essentials of cinematography.

By active and financial support to the CSC, professional cinematographers are able to make their collective voices heard when problems arise in the film industry and possibly find mutually acceptable remedy.

Each year the CSC holds an awards function and trophies are presented to members only in the following categories:

Feature	CSC Award
TV Drama	CSC Award
Documentary	CSC Award
TV Commercials	CSC Award
Student Films	Plaque
News	Roy Tash Award

In addition, and not necessarily each year, the Bill Hillson Award (a miniature Arriflex) is presented to a member of the CSC who has performed outstanding service to the Society or has made a special contribution to the art of cinematography. Also, members have won international recognition and awards including the coveted 'Oscar'.

### MEMBERSHIP

Membership in the CSC is divided into the following categories:

#### Affiliate Membership

The applicant must be professionally employed as an assistant cameraman or camera operator or be active in a field directly related to cinematography such as teaching or studying cinematography at a recognized Canadian institution of learning. Affiliate members have no voting privileges and are not permitted to serve on the board of directors. They have the right, and are encouraged to attend, all membership meetings and may serve on committees.

#### Associate Membership

The applicant must be professionally employed as a cinematographer or camera operator for a period of at least three years. Teachers of cinematography may be considered for this category provided they have sufficient previous practical experience. Affiliate applicants must be in good standing.

#### Full Membership

The applicant must be professionally employed as a cinematographer for a period of at least ten years and must also be fully qualified to assume the responsibilities of Director of Photography. Alternatively, the applicant must have to his credit, exceptional achievement as a cinematographer. Only full members are entitled to use the initials 'CSC' after their names on screen credits, correspondence and stationery. Full membership is not automatically acquired after ten years nor does the ten-year limit always apply. Full membership is granted only after the membership committee has screened an applicant's film examples which

must show an ability to light interiors and exhibit a high standard of excellence. Full membership applications are reviewed once annually and are granted only upon unanimous approval of the board of directors. Associate applicants must be in good standing.

#### Honorary Membership

Honorary membership may be awarded by the membership committee to Canadian laymen who have promoted, or are promoting, through their efforts, the interests of cinematography in Canada. Honorary members are not active, as such, in the regular business of the Society.

#### Life Membership

Life membership is awarded by the board of directors to members who have retired from active cinematography and who have been particularly valuable to the Society in the past. Membership is retained without payment of dues.

# A LIST OF MOTION-PICTURE TECHNICAL TERMS IN FIVE LANGUAGES

Initiated by Carlos Connio Santini

Standardization of international usage in motion-picture language may not be possible, but mutual understanding of the technical terms used in the industry, in those language areas where its principal activities are carried on, is a worthy goal. The basis for this list was contributed by the late Mr. Santini with no claim to its being definitive; in compiling it, however, he tried invariably to choose the term most generally accepted in each language. Readers' comments and additions to the current list will be welcomed.
